AFFIDAVIT OF PAUL D. POPEO, ESQ.

- I, Paul D. Popeo, on oath, depose and say as follows:
- 1. I am a partner in the law firm of Choate, Hall & Stewart, LLP, and I serve as co-counsel to plaintiff John Hancock Life Insurance Company ("John Hancock" or "Hancock") in this action. I submit this affidavit in support of John Hancock's Motion For Reconsideration Of March 30, 2006 Court Order Precluding Certain Testimony (the "Motion for Reconsideration"). The statements contained in this affidavit are based upon my own personal knowledge.
- 2. Defendants Vestmont Limited Partnership, et al. (collectively, "Montgomery Partners" or the "Defendants") have noticed and taken the depositions of seven present or former John Hancock employees in this action. They are:

- (a) Mr. John Ferrie The Regional Vice President of John Hancock's Blue Bell, Pennsylvania office and a 16-year veteran of Hancock's Real Estate Finance Group, who personally originated and helped negotiate the Loan Commitment;
- (b) Mr. Timothy Malik An Investment Officer (now Assistant Vice President) at John Hancock's Boston, Massachusetts office and a 19-year veteran of Hancock's Real Estate Finance Group, who was primarily responsible for underwriting the Loan contemplated in the Loan Commitment:
- (c) Mr. David Henderson A former Senior Investment Officer at John Hancock's Boston, Massachusetts office and an 8-year veteran of Hancock's Real Estate Finance Group, who served as Mr. Malik's immediate supervisor and, in that capacity, personally considered and approved the Loan Commitment in August 2004;
- (d) Mr. Barry Nectow A former Vice President at John Hancock's Boston, Massachusetts office and an 16-year veteran of Hancock's Real Estate Finance Group, who served as Mr. Henderson's immediate supervisor and, in that capacity, personally considered and approved the Loan Commitment in August 2004;
- (e) Ms. Patricia Coyne An Investment Officer at John Hancock's Boston, Massachusetts office and an 13-year veteran of Hancock's Real Estate Finance Group, who personally considered and approved the Loan Commitment in August 2004, and who has extensive experience and familiarity with Hancock's commercial loan policies and procedures;
- (f) Mr. Ivor Thomas The Senior Vice President in charge of John Hancock's commercial mortgage operations after the merger between John Hancock and Manulife Financial in April 2004 and a 32-year veteran of the commercial lending industry, who personally considered and approved the Loan Commitment in August 2004; and
- (g) Ms. Joan Uzdavinis An Assistant Vice President in John Hancock's Portfolio Management Group and a 26-year veteran of the investment finance and pension industries, who was designated by Hancock to testify concerning the financial topics contained in the Defendants' Rule 30(b)(6) Notice, including Hancock's resulting losses.
- True copies of the full minuscript versions of the transcripts of the Malik, 3. Ferrie, Henderson, Nectow, Coyne and Uzdavinis depositions are appended to this affidavit as Exhibits A through E, and G for the convenience of the court. The final transcript of

Mr. Thomas' deposition had not arrived as of the date of this affidavit. A true copy of the rough transcript of Mr. Thomas' deposition is appended to this affidavit as Exhibit F.

- 4. Montgomery Partners deposed Mr. Malik on January 27, 2006, and Mr. Ferrie on February 1, 2006. On the same day that Mr. Ferrie's deposition concluded, Montgomery Partners served John Hancock with an omnibus Rule 30(b)(6) Notice of Deposition listing many of the same topics already covered at the Malik and Ferrie depositions, as well as certain additional topics. Shortly thereafter, Montgomery Partners issued a combined Notice of Deposition for Messrs. Henderson, Nectow and Thomas and Ms. Coyne.
- Partners to arrange mutually acceptable dates for the various depositions that had been noticed on both sides. In the course of making those arrangements, I personally notified Montgomery Partners that John Hancock: (a) would designate Mr. Henderson and Ms. Coyne to address various topics in the Defendants' Rule 30(b)(6) Notice of Deposition concerning Hancock's commercial lending practices, policies and procedures to the extent that those topics had not already been covered by Messrs. Malik and Ferrie at their depositions; (b) would produce an additional witness (Ms. Uzdavinis) to testify concerning the financial topics contained in the Defendants' Rule 30(b)(6) Notice, including Hancock's resulting losses; and (c) would agree to designate relevant portions of Mr. Malik and Mr. Ferrie's depositions as corporate testimony under Rule 30(b)(6) to the extent that the Defendants wished to do so. This course of action, as proposed by John Hancock, was acknowledged by counsel for Montgomery Partners during our discussions to be acceptable to the Defendants.
- 6. The depositions of Mr. Henderson, Ms. Coyne, Mr. Nectow, Ms. Uzdavinis and Mr. Thomas occurred on March 1, March 10 (morning), March 10 (afternoon), March 21,

and March 31, 2006, respectively. After the depositions of Mr. Henderson and Ms. Coyne, Montgomery Partners made the argument that those witnesses had not been adequately prepared for their depositions. Specifically, Montgomery Partners complained in a letter dated March 3, 2006, that Mr. Henderson had no "specific recollection" of the approval of the Defendants' Loan Commitment, and in a letter dated March 10, 2006, that Ms. Coyne "did not speak with any other John Hancock employee" or "review any documents in preparation for her deposition."

- 7. John Hancock responded promptly to Montgomery Partners complaints. In a telephone conference held on Monday, March 6, 2006, my partner, Brian Davis, and I explained to Montgomery Partners' counsel (Attorney Howard Scher), *inter alia*, that: (a) the Rule 30(b)(6) witnesses that Hancock was producing were personally knowledgeable regarding the topics about which they had been designated to testify and did not require extensive further preparation; (b) that they were the most logical Rule 30(b)(6) witnesses to appear and testify on Hancock's behalf because of their experience and personal involvement; and (c) that Hancock would work with the Defendants to identify and provide additional witness testimony, or to designate prior testimony from Messrs. Malik and Ferrie, as appropriate, to speak to any subject areas that the Defendants reasonably believed had not been adequately addressed.
- 8. Two days later, on March 8, 2006, I repeated the same offer to Montgomery Partners' counsel (Attorney Brian McCormick) in writing. A true copy of my e-mail message to Mr. McCormick is appended to this affidavit as Exhibit H. In it, I said:

the final portion of topic #2 (last sentence) seeks a designee with respect to "the negotiation of the [terms and conditions of the Loan Application] between Defendants and John Hancock". You have already deposed Malik and Ferrie, the Hancock individuals who negotiated that document with the defendants. *Please let me know*

if there are legitimate areas of inquiry on that subject on which you were not able to question those witnesses. If so, I am happy to speak with you and determine whether we can make another witness available – but I think you have already spoken with the most knowledgeable people.

Exhibit H (emphasis added).

- 9. Montgomery Partners did not take advantage of John Hancock's offers to address their concerns regarding Mr. Henderson's deposition, and did not identify any specific subject areas on which they wished to obtain additional testimony.
- 10. I spoke again with Montgomery Partners' counsel (Attorney Howard Scher and, as I recall, Attorney Brian McCormick) in the aftermath of their March 10, 2006 letter concerning Ms. Coyne's deposition. In a conference call conducted on Monday, March 13, 2006, I again explained, *inter alia*, that the Rule 30(b)(6) witnesses that John Hancock was producing, including Ms. Coyne, were personally knowledgeable regarding the topics for which they had been designated, and that Hancock would work with the Defendants to identify and provide additional testimony, or to designate prior testimony from Messrs. Malik and Ferrie, as appropriate, to speak to any subject areas that the Defendants reasonably believed had not been adequately addressed. And again, Montgomery Partners counsel failed, in response, to identify any specific subject areas as to which they allegedly lacked sufficient information or testimony. To the contrary, Defendants' counsel expressed satisfaction with John Hancock's proposal and indicated that they likely *would not* seek court intervention concerning the issues raised in their March 10, 2006 letter.
- 11. Thereafter the parties were in nearly daily communication, working to schedule depositions and coordinating the various logistical details of the litigation. In none of those

communications did Montgomery Partners' counsel raise what it now characterizes as John Hancock's "egregious[]" failure to comply with Rule 30(b)(6).

12. To the contrary, on March 15, 2006, in the context of one of the parties' numerous scheduling communications, counsel for Montgomery Partners (Attorney Brian McCormick) e-mailed me to inquire about the logistics of implementing Hancock's offer to satisfy the Defendants' alleged concerns by designating testimony from the prior Malik and Ferrie depositions as official testimony of John Hancock. A true copy of his e-mail message to me is appended to this affidavit as Exhibit I. In it, he said:

I also want to discuss how your proposal regarding post-designating portions of Mr. Malik's deposition as a 30(b)(6) witness would work.

Exhibit I.

- 13. I responded to Attorney McCormick's e-mail message by promptly calling him on the telephone and offering that the entire transcript, or portions thereof, could be designated as Rule 30(b)(6) testimony, if that process was acceptable to the Defendants. By all indications, it was.
- 14. On March 21, 2006, Montgomery Partners conducted the deposition of John Hancock's final Rule 30(b)(6) witness, Ms. Joan Uzdavinis. I defended Ms. Uzdavinis at her deposition. At no time during Ms. Uzdavinis' deposition, or in the week thereafter, did the Defendants make any complaint concerning the extent of her knowledge on the topics for which she was designated or the manner of her "preparation" leading up to her deposition.
- 15. The first time I learned that Montgomery Partners was in any way dissatisfied with Ms. Uzdavinis' deposition preparation was in midst of a telephonic conference to discuss the content of the parties' Joint Pretrial Memorandum on March 28, 2006. During that call,

counsel for Montgomery Partners announced for the first time their alleged dissatisfaction with Ms. Uzdavinis' deposition preparation and their intention to seek unspecified relief from this Court. Defendants then waited an additional day, and filed their Motion late in the evening of March 29, 2006, thereby leaving John Hancock little time to review, and no opportunity to oppose, the Motion prior to the scheduled Pretrial Conference on Thursday, March 30, 2006.

- 16. The Court allowed Montgomery Partners' Motion on March 30, 2006, without the benefit of any opposition papers from John Hancock. The Court, however, did encourage the parties at the Pretrial Conference to resolve their discovery disputes among themselves, and did invite John Hancock to submit a Motion for Reconsideration seeking relief from its March 30 Order.
- asked Montgomery Partners to identify specific subject areas on which the Defendants believe they are missing information, or the particular subject areas on which they believe that the proffered testimony to date is inadequate or incomplete, so that Hancock can address their concerns. A true copy of a letter on that topic that I sent to opposing counsel (Attorneys Scher and McCormick) on March 30, 2006 is appended to this affidavit as Exhibit J. A true copy of an e-mail message that I received in response from Attorney Scher on April 5, 2006 is appended to this affidavit as Exhibit K. In it, Attorney Scher informed me that the Defendants do not regard it as their burden to "identify areas where we believe information was missing or where testimony was incomplete...."

Signed under the pains and penalties of perjury this 7th day of April, 2006.

What is this document called? This is called an approval. It used to be called a vote by John Hancock, but it is called an approval, a commitment approval, loan approval. And is it accurate to say that this is an example of the signature process? A begetting example. It has changed since then. It has become more descriptive than this form. So my question is: How many other approvals had you presented? You presented this loan? Yes. | 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 | Q. | of it. I see. Now is Malik Exhibit 1 the approval of John Hancock Life Insurance Company for the what we have called the Avenel loan? Yes. MR. SCHER: So the next exhibit number. (One-page memorandum dated August 17, 2004, to Mr. Malik from Ms. Coyne, production number JH 01174 marked Exhibit No. 2 for identification.) BY MR. SCHER: I show you what I have had marked as Malik Exhibit 2. (Handing Exhibit No. 2 to the witness.) Yes. And it is a document that is Bates stamped JH 01174. It appears to be a memorandum from Patricia C. Coyne, investment officer, to you? |

8 б than scheduling the time convenient JOHN PATRICK FERRIE, having been duly sworn, was examined and 2 for you? A. I met with my attorney. 3 testified as follows: 3 Q. And when did that meeting 4 **EXAMINATION** 4 5 BY MR. SCHER: 5 occur? A. Yesterday. 6 O. Would you state your name 6 Q. And what was the duration 7 for the record, please. of that meeting, approximately? A. John Ferrie. 8 A. Three hours. 9 Q. My name is Howard Scher. 9 O. Did you review documents in 10 10 We just introduced ourselves to one connection with that? another informally. I represent the 11 A. Yes. 12 defendants in this case. 12 Q. What, in general terms, was You understand that? 13 13 14 your role in this - in the A. Yes. 14 arrangements with - in connection 15 15 Q. Have you ever had your with the work with Vesterra deposition taken before? 16 Corporation, the defendants in this 17 A. Yes. 17 case? What was your role? Q. Roughly how many times or 18 18 A. Originate the transaction. 19 precisely how many times? 19 Q. And what does that mean? 20 20 A. Once. A. Act as a go-between. Q. Once? 21 21 A. Yeah. Q. What did originating and 22 22 acting as a go-between result in your 23 23 Q. Okay. And what was the doing in connection with this 24 context of that case? What kind of 9

case was it? What was the subject? A. It was a - it was a 2 condemnation. 3 4 Q. Okay. So that you know 5 that my questions and your answers are being memorialized by the court reporter and will ultimately be 8 transcribed in writing and so that when you see - when you hear my questions and you give your answers. 11 that's the way they'll appear in a 12 writing. You understand that? 13 14 A. Yes. Q. If at any time during the 15 course of this deposition you don't understand my question, you have the 17 perfect right, and in fact I 18 encourage you, to ask for a 19 clarification. 20 21 Is that understood by you? 22 A. Yes.

Q. What have you done to 24 prepare for this deposition other transaction?

2 A. Finding - no, I can't say 3 I did that because - meeting with 4 the borrower. 5 Q. What else? A. Bringing the loan to John

6 Hancock. 7 Q. What else?

8 9 A. That's it.

Q. Okay. After you met with 10 the borrower and brought the loan to 11

John Hancock, what else did you do in

13 connection with the prospective loan?

A. Gave the borrower the 14

application. 15

Q. Okay. What's your job with 16 John Hancock in 2004, spring, summer 17 18

of 2004? What was your job? A. Manage the regional office.

19 20 Q. And what are your duties

and responsibilities? Is that what 21

22 your job is now?

23 A. Uh-huh. Yes.

24 Q. What region is covered by

23

10 12 the office you manage? O. In what ways do you 1 A. Pennsylvania, New Jersey, 2 identify them? 2 A. Contacts I've made over the Delaware, and Puerto Rico. 3 3 4 MR. DAVIS: Like the First 4 years. Q. Anything else? 5 5 Circuit. BY MR. SCHER: 6 A. Newspaper articles, 6 associations, referrals. 7 Q. Not the Virgin Islands? 7 8 A. No. O. Anything else? 9 Q. Okay. And what are your 9 Not that I can think of. Q. And you said you service 10 duties and responsibilities as 10 manager of that region? the loans? 11 11 A. Manage the office. 12 12 A. Yes. Q. What does that entail? Q. Hire, fire, promote the 13 13 employees who work in that office? 14 14 A. Once the loans are closed, we do an annual inspection. A. Yes. 15 15 Q. And how many employees work Q. Anything else? 16 16 A. Evaluate the rent roll and in that office? 17 17 the income and expense for the prior 18 A. Three, counting myself. 18 Q. And who are they? 19 19 A. Myself, Brian Depolis, 20 Q. Anything else? 20 21 D-E-P-O-L-I-S, and Helene McCole, 21 A. If it - if there's a H-E-L-E-N-E M-C-C-O-L-E. problem, we report it to home office. Q. What's Ms. McCole's duty? 23 Q. How is your performance 23 evaluated in connection with - in 24 What's her job? 13 11 A. A combination. your employment? 1 2 A. What do you mean? O. Of? Q. How is your performance as 3 A. Closer, admin. 4 Q. Anything else? an employee judged? In other words, 5 A. We all fill in. what is the process by which your 6 O. I'm asking about her job. employment is judged, evaluated? Are you subjected to an annual review, 7 A. That's the major duties. Q. And Mr. Depolis, what's his 8 for example? Does your superior -9 job? 9 A. Yes. I have an annual 10 10 A. He's second in command. review. 11 Q. And what's your job besides 11 O. Okay. And what are the 12 managing the office? 12 criteria employed in connection with your annual review? 13 A. Originate loans. 13 A. Well, they're - number 14 O. What else? 14 one, am I a team player? Number two, 15 A. Service the loans. 15 Q. What else? how is my closed loan production? 16 A. That's it. 17 17 Number three, how are the closed Q. Okay. What do you do to 18 loans performing? 18 originate the loans? 19 Q. Anything else? 19 A. I call on prospective A. I'd say how am I perceived 20

21

22

23

21 borrowers, developers.

A. Any way I can.

Q. And how do you identify

22

24

23 them?

overall by the home office personnel?

Q. Is your compensation

affected in any way by your

performance?

14

A. Yes. 1

2

3

5

Q. Can you tell me, how are you compensated? What's your

compensation? 4

A. You mean dollars?

Q. Dollars and what's it

6 7 consist of?

THE WITNESS: Is that -8 9

MR. DAVIS: You can provide

10 it to him.

THE WITNESS: Salary and 11

12 commission.

BY MR. SCHER: 13

Q. And what's the salary? 14

15 A. Salary is 150.

O. Has that changed from 2004 16

to 2005? 17

18 A. Yes.

Q. How did it change? 19

A. 2004, it was probably 120. 20

Q. You received a \$30,000 21

22 salary increase, approximately,

23 between 2004 and 2005?

A. Uh-huh. Yes. 24

16

the office expenses, there is a

sliding scale from 10 to 20 percent,

10 percent for the first - for the

doubling of the expense.

So if the expense is worth, 5

let's say, 500,000, the first level 6

would be a million. If your fees 7

were a million, you'd get 10 percent

9 of the differential and over that you

get 20 percent. 10

11

Q. And what's the fee on a

closed loan? 12

 Typically, half a point, 13

which if it's a million-dollar loan, 14

that would be \$5,000. 15

Q. Is your commission 16

influenced at all by the originating 17

of loans that don't close? 18

19 A. No.

Q. So in this instance, the

20 Avenel loan, which did not close, the 21

fees generated, the \$965,000 in fees

that were generated, had absolutely

no effect on your compensation. Do I

17

15

Q. What was that based on?

A. Performance.

Q.' And the performance

3 4 criteria that you've just

5 articulated?

6 A. Yes.

Q. Nothing else. Nothing

8 else.

7

13

20

9 A. For example?

Q. No. I mean, have you 10

identified all of the criteria that 11

12 were employed -

A. Yes. Yes.

O. And you said - and part of

15 it is commission. Could you describe

to me the commission program -

A. Yes. 17

Q. — that is, what are the 18

19 criteria?

A. We are - for every closed

loan we're allocated a certain fee. 21

And we're also charged with

controlling office expenses. To the extent that the credited fee exceeds

have that right? 1

A. Yes.

O. Are they accounted for in

the production of your office in any 4

way?

2

5

In other words, are the 6

fees generated by the - the 7

application processing commitment 8

fees generated in connection with the

Avenel loan, are they recorded in the

results of your office? 11

A. No. 12

Q. Where are they reflected? 13

Do you know? 14

A. I don't know. 15

Q. You said you acted as a 16

go-between. 17

What did you - between the 18

borrower and who? 19

A. And home office. 20

Q. And who in home office -21

do you report to someone in home 22

23 office?

24 A. I report to - my boss is

Q. What have you done? Right.

A. Nothing. 1 Q. Have you collected 2 documents -A. Yes. 4 5 Q. - to produce in this case? A. Yes. 6 Q. And what did your document 7 collection process entail? How did 8 9 you do that? 10 A. Notifying everybody in my office to produce whatever notes they 11 12 had, copying all the documents in our file, checking our E-mails, Outlook, 13 anything that had to do with Avenel. 14 15 O. And did you produce those 16 documents to your counsel? 17 A. Yes. Q. How were you informed to do 18 that collection, that process of 19 collecting documents? 20 21 MR. | 4 | made to you? |

5 MR. DAVIS: You can tell 6 him from whom you received your

7 communications in that regard.

8 THE WITNESS: I received it 9 from Lisa Gaulin at Mr. Davis's

10 office.

11 MR. SCHER: Okay.

12 BY MR. SCHER:

Q. Can you tell me when the –
well, how the first notion of the
Avenel deal came to your attention?
In other words, when did

17 you first learn about or how did you18 first learn about the possibility of

19 what eventually became the loan

20 application on the Avenel

21 transaction?

22 A. My associate, Brian

23 Depolis, had been talking with Joe

24 Kelly for a while, and he brought it

60

Q. Okay.
 A. So my contact was with Rob

3 from that point on.

Q. So when he approached you with the loan, what did he tell you

6 about it? Do you have any

7 recollection? What did he provide to

8 you?

19

9 A. He gave me a pro forma with 10 a description of the completed

11 project.

Q. And he had that – was that
pro forma prepared for John Hancock
or was it a generalized pro forma

15 that was prepared for whatever source

of borrowing they could obtain?MR. DAVIS: Objection.

18 BY MR. SCHER:

Q. If you know.

20 A. I don't recall.

21 Q. And then what did you do?

22 What, if anything, did you do after

23 you had this contact with Rob Kelly

where he turned over the pro forma?

59

1 to my attention.

2 Q. What did you learn from

3 Brian Depolis?

A. That they were building

5 a - an apartment complex.

O. What else?

7 A. It was a potential loan

8 opportunity.

6

11

9 O. Did Brian tell you that

10 they had a construction loan already?

A. I don't recall.

12 O. What happened next in the

13 process?

14 A. Subsequent to that, Rob

15 Kelly, a mortgage broker, approached

16 me with the transaction.

17 Q. And when you say

18 "approached me with a transaction,"

19 what does that mean? What did that

20 mean?

21 A. To me it meant that since

22 Rob and Joe were related, that Rob

23 probably had the inside track on

24 placing the mortgage.

61

A. As best as I can remember,

I initiated contact with Joe Kelly

3 and Jim Koller.

4 Q. When you say "initiated

5 contact," what did you do? Call

6 them? Write them?

A. I believe Rob set up a

8 meeting.

7

9

Q. And so you did have a

10 meeting with them?

11 A. Yes.

12 O. And what happened at the

13 meeting?

14 A. I tried to present Hancock

15 in its most favorable light in order

16 to generate a favorable decision to

17 proceed with our loan application.

18 Q. And how did you go about

19 doing that?

20 A. Smile.

21 Q. Okay. I haven't seen that

22 yet, so I just wanted to know.

Did you have materials

24 about John Hancock with you when you

11

62

made this presentation?

A. I don't remember. 2

O. Did you understand that you

4 were in a competitive situation; that

is, that there were other lenders 5

6 available?

3

7

14

16

A. Oh - very much.

8 Q. Did you know who those

other potential sources were? 9

A. Not specifically. 10

O. Did you ever learn who 11

those other sources were? 12

13 A. Yes.

Q. And how did you learn who

the other sources were? 15

A. I think Rob told me.

Q. And who were the other 17

18 sources?

A. I believe it was GMAC. 19

O. Do you know what GMAC's 20

practices and procedures are with 21

respect to loan applications? 22

23 A. No.

24 O. Do you know whether they 64

Q. Okay. What else? What

3 other items?

A. They wanted to have a - on 4

our forward program we typically have 5

a three-month extension. They wanted 6 7

a six-month extension.

Q. So that it would take the

9 loan 18 months out?

10 A. Yes.

Q. And what else?

12 A. They wanted to have the -

it was a ten-year loan. They wanted 13

to have the loan open to prepayment

in the tenth year, which I priced it 15

and found it was not economical. 16

So we offered a - an 17

eleventh year option, open in the

eleventh year, at, you know, whatever 19

the rate would be. 20

O. And what else? What other 21

items? 22

A. The borrower wanted to 23

limit their exposure under I think 24

processing application and commitment 2

3 fees?

5

4

Q. Do you know whether they

have criteria - what their criteria 6

are for making loans? 7

A. No. 8

Q. So how did you make your 9

10 case for John Hancock? What did you

11

18

A. Well, the borrower wanted 12

specific items in the application and

we attempted - we, Hancock -

attempted to solve their requests. 15

Q. And do you remember what 16

those items were? 17

A. Well, one, they wanted a

forward - a one-year forward. 19

20 Q. Okay. So they wanted a

loan commitment from Hancock that

would not close for a year.

A. Right. They wanted to lock

24 the rate one year in advance of the

65

it's Paragraph 30 of the loan

application to the 3 percent that 2

3 they had put up plus another 2

4 percent.

5

Q. Exposure against what

6 contingency?

A. Against Hancock's losses.

7 8 Q. Okay.

9 A. Whatever. Whatever the

language is on that paragraph. 10

Q. Right. And what -11

A. So it would be a total of 5 12

13 percent.

14 And we ran it up the

flagpole and that - we couldn't do 15

16

Q. And you informed them of 17

that -18

A. Yes. 19

O. - in writing; am I right?

20 A. Informed them in writing? 21

O. You informed them that you 22

23 couldn't do that in an E-mail?

A. Jeez I don't - I don't 24

|---|------------------------------------|
| 1 | levels, net operating income, debt |
| 2 | service coverage, loan to value? |
| 3 | A. Prior to closing? |
| 4 | O. Yes. |

5 A. Yes. 6 Q. Who does that?

A. I would do it. 7 Q. And what is that process? 8 A. Well, the commitment 9

outlines certain criteria. We had an 10

exhibit outlining those criteria. 11

And I would make sure that the -12 13 when we close the loan that the

14 current levels of income were within

15 those criteria.

Q. And what do you literally 16 17 do? Do you fill out a form? Do you write okay on it? Do you - you 18 know, what literally do you - how do

19

you accomplish that function? A. Take a current rent roll, 21

22 add it up, deduct the expenses,

determine what the level of net 23 operating income was.

80

that is, \$32 million, was important

to them: am I right?

3 A. Yes.

4

Q. You knew that there was

competition from at least GMAC at \$33 5 million; right? 6

7 A. At that time I'm not sure I

8 knew what the competition dollar amount was. I certainly knew there 9

was competition. 10

Q. But in any event, you knew 11 that the size of the loan was 12

important to the borrowers? 13

A. Yes. 14

Q. They wanted 32 million; 15

right? 16

18

17 A. Yes.

O. Again, this 10 percent

constant, you never discussed that 10 19

percent constant criteria or raised

it or referenced it with Jim, Joe, or 21

Frank, Mr. Koller, Mr. Kelly, or Mr.

Palopoli; am I right about that? 23

MR. DAVIS: Objection. 24

79

Q. And that's it.

2 A. Uh-huh. Q. Yes?

3 4 A. Yes.

Q. How do you communicate that

5 the rent roll, net operating income, 6

whatever are within - are in

conformity with the criteria of John 8

Hancock as set forth in the loan 9

10 application?

11

A. There's an Affidavit -

12 well, actually, there's an exhibit on

13 the application, commitment, which

14 has to be signed by me.

Q. And once you've signed that 15

16 Affidavit and then you've dispatched

your responsibilities with respect to 17

evaluating the loan at the time that

19 the closing is to occur?

20 A. Yes.

21 Q. Okay. You knew that at the

22 time you were smiling at your initial

23 meeting with the prospective

24 borrowers that the size of the loan,

81

MR. SCHER: What's the 1

MR. DAVIS: I think that 3

mischaracterizes the record. I think 4

he already said he talked to Rob 5

Kelly about it and that Mr. Kelly, I 6

think, was their representative. 7

MR. SCHER: Okay. 8

9 MR. DAVIS: But you can

10 respond.

MR. SCHER: All right. 11

Q. Other than the one 13

communication you had with Rob Kelly, 14

did you have any other communications 15

on the subject of the 10 percent

17 constant?

A. I don't recall. 18

Q. Can you recall any 19

conversations with Mr. Koller on the 20

subject of the 10 percent constant? 21

A. I don't recall.

23 O. Any conversations with Mr.

24 Joe Kelly on the subject of the 10

A. Tim Malik.

22

Q. And what did you tell him?

A. I told him it's a - it's a

problem. It wasn't in the original

application, it should be stricken, 7

8 and it subsequently was.

Q. What did Malik say to you

10 in that conversation?

A. I don't recall.

Q. How did you learn that it

was stricken? 13

A. Because we committed 14

15 without that constant being in there.

Q. Right.

17 So if I have the sequence

18 correctly, you called Rob Kelly, told

19 him there was a problem and it was a

new criteria, you sent him Ferrie-1,

the E-mail; is that right? 21

MR. DAVIS: Objection.

23 You can respond.

THE WITNESS: I can't say 24

96

get his input. He said he'd check

with the borrower, get back to me.

And I waited to hear back from him.

O. Okay. And other than your 4

communicating with Mr. Malik and 5

conveying to him what Rob Kelly told

you, deal killer, big problem, and 7

Mr. Malik - other than that

communication with Mr. Malik, was

there - did you have any other 10

communication with anyone on the 11

subject of the 10 percent constant? 12

13 A. I didn't have any

communication with Mr. Malik until

after I got a response from Rob 15

16 Kelly.

17 O. Okay. So you got a

response from Rob Kelly and you 18

communicated that response in essence 19

to Tim Malik; right? 20

A. Yes. 21

O. What else? What else did 22

you do with the information you 23

obtained from Mr. Kelly? Anything

95

definitively that - it sounds like

what I would have done.

3 BY MR. SCHER:

Q. And then between the time

5 that you communicated with Mr. Kelly

6 by phone and E-mail and the time that

you received word back from Mr. Kelly

by phone, is it accurate to say that

you did nothing in connection with

10 the Avenel loan? Is that accurate?

MR. DAVIS: Objection. 11

THE WITNESS: I don't -12

MR. DAVIS: If you know. 13

THE WITNESS: I don't know

15 what - I don't follow.

BY MR. SCHER:

Q. What else did you do? 17

So you're told of the new

19 criteria.

14

18

A. Right. 20

O. Other than your 21

22 communications with Rob Kelly, what

23 else did you do?

A. I called Rob, I wanted to 24

else other than communicate to Mr.

2 Malik?

3 A. I don't know what else I

4 would be doing.

5 Q. Call, you know, Mr.

McPadden. 6

A. No.

7

8 Q. Okay. Called someone else

9 in Boston.

A. No. 10

Q. Okay. And what was Mr. 11

12 Malik's response to you at that time?

MR. DAVIS: Objection. 13

I think this has been asked 14

15 and answered.

You can respond.

16 17 THE WITNESS: I don't

recall. 18

19 MR. SCHER: Okay.

20 BY MR. SCHER:

Q. And that, as far as you 21

know, that is all - those are all 22

23 the communications that you had on

What - in terms of 11 12 the volume of loans that you generate 13 through your office, what percentage, 14 if you can state it in percentage or 15 number, of loans are originated in 16 your office annually?

MR. DAVIS: Objection. 17 Percentage based on what? 18 19 BY MR. SCHER: 20 Q. What's the number of loans 21 that are originated in your office?

How many? 20? 70? 150? 23 A. We're typically 150 to 200 24 million dollars a year.

Q. Well, had this happened 16 17 before, this -A. Yeah. Each time that 18

19 interest rates look like they're taking a major swing up, borrowers 20

would be concerned about having a 21 commitment later, so they'd prefer to 22

lock the rate today rather than 23

24 tomorrow.

103

Q. In dollar volume? 1

A. Right. 2

Q. And of that 150 to 200 3

million a year, what percentage are

forward commitments? In other words,

of a duration greater than 60 days

from the time of the loan application approval to the closing of the loan.

A. Well, in 2004, 2005,

probably 50 percent of my business 10

was forwards. 11

Q. And why is that? That's

unusual: right? 13

14 A. Yes.

Q. Typically, prior to 2004, 15

what would the percentage be? 10 16

percent? 5 percent? 17

A. I'm not - I'm not sure.

But minimal. 19

18

20

21

24

O. Minimal.

And just, you know, state

22 the obvious as to why this 50 percent

Q. Has John Hancock always 1 been in the business of, as long as

you've been with them, in the

4 business of making forward commitment

5 loans? 6

I don't know.

7 Q. Have you been making

8 forward commitment loans for John

Hancock from the time you started 9 10 with them?

11

A. I have to check my loan

12 portfolio. I can't recall offhand.

Q. Okay. Was it umusual 13 14 when - out of the ordinary when you

started making this - the forward 15

loan commitment at a volume of 50 16

17 percent?

anything to lock the rate? 23

A. I don't know. 24

136

Q. Does that - why - do you 1 2 know why he told you that? Do you know why? 3

MR. DAVIS: Objection. 4

You can respond.

6 THE WITNESS: I would think it's probably because I asked him the 7 8 question.

9 BY MR. SCHER:

10 Q. And do you recall asking

him that question? 11

12 A. No.

Q. Why was the - what is a 13

14 hedge loss?

A. I don't know. Specifically 15

16 I don't know. I have a general idea

17 of what it is.

Q. Well, what's your general 18

19 idea of what it is?

A. It's a loss that occurs

21 when the treasury rates move below

the rate that the loan was locked at. 22

23 Q. And is the hedge loss an actual loss or is it a paper loss? 24

135

Q. Does John Hancock hedge,

that is, buy an instrument to

forestall the possibility that they

would lose money on closing the loan

at the rate that it was locked in?

A. Specifically on Avenel? 6

7 Q. Yes.

9

10

A. I don't know. 8

Q. Do they generally do that?

A. I don't know. Sometimes

they do, sometimes they don't. 11

12 Q. Let me show you the next

13 document.

(Exhibit Ferrie-4 was 14

15 marked for identification.)

16 BY MR. SCHER:

Q. Again on August 11, 2004, 17

I'll show you what's been marked as 18

19 Ferrie Exhibit 4, and Mr. Malik is

telling you for your information that

the hedge loss today on August 11

would be \$355,000.

23 Do you see that?

24 A. Yes. 137

MR. DAVIS: Objection. 1

THE WITNESS: I don't know. 2

BY MR. SCHER:

4 Q. Do you know what Mr. Malik

5 was trying to - well, you think you

asked him what the hedge loss would

7 be as of August 11th?

A. Yes.

9 Q. And why would you - why

10 did you ask him that?

A. It appears from reading 11

12 your exhibits here that I probably

asked him what the hedge loss would 13

14 be in order to get the application

15 approved as it was submitted since

16 treasuries had dropped.

17 And consequently, if we did

18 not approve the application as

19 submitted, the borrower would have

20 the opportunity to walk.

Q. And what does that have to 21

do with the \$355,000? 22

A. Hancock would have suffered 23

24 a loss.

And you did not observe in 9 this E-mail or otherwise that the 10 Letter of Credit would be rescinded 11 if the loan application were not 12 granted; am I right about that? 13 MR. DAVIS: Objection. 14 THE WITNESS: I don't 15 follow. 16 BY MR. SCHER: Q. You didn't point that out 17 when you sent this E-mail, but that 18 was true as well, wasn't it? A. Well, it's in the 20 21 application. Borrower gets - if the application gets changed, the 22 23 borrower gets his money back.

Q. Okay. What made you think

Q. Did you ask Malik to calculate the hedge loss because you knew it was going to be a positive 7 number of some size? 8 9 A. Well, I knew the treasury 10 rates had dropped. I didn't know what the - what the sum would be. 11 12 Q. Okay. Do you know what, if 13 any, action Mr. Malik took with the calculation he performed? The hedge 15 loss calculation? 16 A. No. 17 MR. And that enclosure is a 6 John Hancock Real Estate Investment 7 8 Group form? A. Yes. 9 Q. Which is entitled 10 11 "Preliminary Loan Information Worksheet For Multi-Family Properties": right? A. Yes. 14 Q. And it's an XLS, meaning an 15 Excel form, that's preformatted; 16 17 18 MR. DAVIS: Objection. If you can respond. 19 BY MR. SCHER: 20 Q. Is it an Excel form? 21

145

Q. Do you recall how you 1 obtained the operating budget for 3 Avenel, the Montgomery Square 4 apartments, which is that - which 5 forms the basis for the Exhibit 1 to 6 the loan application? 7 MR. DAVIS: Objection. 8 THE WITNESS: Not 9 specifically, but I can tell you how I normally do it. 10 BY MR. SCHER: 11 12 Q. Tell me how you normally do 13 it. A. In this case it came from a 14 15 broker. It went originally to Scott 16 McIsaac in Boston, who in turn sent 17 it to me. 18 The original would have been prepared by the broker in 19 conjunction with the borrower and 21 then subsequently we would have 22 ironed out the final numbers with the 23 borrower, again, in conjunction with 24 his representative.

A. What do you mean

Q. Well, it's got these black

"preformatted"?

22

23

38 (Pages 146 to 149)

Q. And then ultimately the ironed-out numbers would be reflected on Exhibit 1 and attached to the loan application.

A. Right. And as best we could determine at that time.

Q. Right.

11 Q. I'll show you what I've had 12 marked as Ferrie Exhibit 6, which is 13 an E-mail dated June 18, 2004, Bates 14 stamped JH 74 through 77.

Can you tell me what this

16 is?

A. I could tell you what it appears to be. It's unexecuted.

19 Q. Okay.

20 A. It appears to be a term

21 sheet for the Avenel property.

Q. And you made reference to a term sheet earlier in your testimony

24 and this is what you were referring

148

Q. I'll show you what I've had marked as Ferrie Exhibit 7. It's a document dated June 18th, 2004, Bates stamped V, indicating it was produced by Vesterra, 1181 through 1188.

Can you tell me what this

7 is?

6

17

19

A. This appears to be again a term sheet with notes on it.

10 Q. Okay. Do you recall that 11 there was a term sheet executed in 12 connection with this transaction?

13 A. I don't recall. There may

14 have been:

15 Q. Okay.

16 A. We do it both ways.

MR. SCHER: Let's mark this

18 as the next exhibit.

(Exhibit Ferrie-8 was

20 marked for identification.)

21 BY MR. SCHER:

22 Q. I'll show you what I've had

23 marked as Ferrie Exhibit 8. And

4 believe it or not, it's the only copy

1 to; right?

A. In what context?

3 Q. You referred to the

existence of a term sheet and -

5 A. I did?

6

MR. DAVIS: Objection.

7 I think earlier in your

8 testimony you made some reference to

9 a term sheet.

10 But you're not saying that

11 this is the final term sheet; you're

12 just saying that this is a term

13 sheet; right?

14 MR. SCHER: Right.

15 BY MR. SCHER:

16 Q. This is a form of a term

17 sheet; right?

18 A. Yes.

19 Q. But since it's not

20 executed, it's not the term sheet?

21 A. Right.

22 (Exhibit Ferrie-7 was

23 marked for identification.)

24 BY MR. SCHER:

149

I have, I took it from my own

2 notebook, and it is Bates stamped JH

3 733 through 737 and it was previously

4 marked Koller Exhibit 6 at Mr.

5 Koller's deposition.

6 Is that the executed term

7 sheet?

9

8 A. I don't see my signature.

so - it appears to be.

10 MR. DAVIS: I don't see the

11 date down here. Okay. Thank you.

12 (Exhibit Ferrie-9 was

13 marked for identification.)

4 BY MR. SCHER:

15 Q. I'll show you what I've had

16 marked as Ferrie Exhibit 9, which is

17 a document Bates stamped JH 219.

8 appears to be an E-mail from you to

19 jkelly@kollerkelly with a carbon copy

20 to Rob Kelly and Tim Malik dated July

21 29 at 11:25 a.m.

Do you see that?

23 A. Right.

Q. Could you take a moment and

review it and tell me whether this

was your response to the discussion

3 you had with respect to a maximum

exposure of 5 percent in the event

the loan was not closed?

A. Just to make sure I've got

the right paragraph.

8 Yes.

7

9 Q. And you've looked at the

10 loan application and specifically at

11 Paragraph 30 in the application and

12 Condition 69 in the supplement?

A. Yes. 13

Q. And essentially you copied 14

15 the language from Paragraph 30

16 from - in the application, JH 348,

in your E-mail; right? 17

A. You mean did I attach it as 18

19

Q. No. You copied the 20

21 language from that paragraph.

A. In my E-mail? 22

23 O. Yes. In other words, the

24 phrase you use in your E-mail is,

152

A. - out of that - you know. 1

May have been, may have not. 2

O. Well, one of the words is 3

capitalized -4 5

A. Right.

Q. - namely, the word 6

"costs." 7

8 A. Right.

Q. Do you agree that you used

10 the capital C costs because that's

what it was in the loan application

12

9

13

MR. DAVIS: Objection.

14 THE WITNESS: I don't know

15 whether I did or not.

BY MR. SCHER:

17 Q. You can't recall?

18 A. Right.

Q. One way or the other? 19

20 A. No.

21 Q. Sitting here today, you

don't know whether it was from this 22

form that you found that capital C 23

24 costs; right?

151

Therefore, you need to deliver the

loan or be liable for all, capital C, 2

3 costs.

5

15

24

4 A. Uh-huh.

Q. And in the Paragraph 30 it

says - at the end of that paragraph,

it says, you shall - Borrower shall 7

also continue to remain liable for

all costs. Page 348 Bates stamp.

10 A. Uh-huh.

11 Q. At the very end of

12 Paragraph 30. 13

MR. DAVIS: Objection.

You can respond. 14

THE WITNESS: Now, which

16 part are you saying is a copy?

17 BY MR. SCHER:

Q. The phrase "liable for all 18

19 Costs."

A. I don't know whether it's 20

from there or not, but - I mean,

that's only, one, two, three, four

23 words -

Q. Right.

153

A. I can't tell you for sure.

O. Okay. Do you think so?

3 A. I don't know.

4 Q. I don't want you to

5 speculate, but if you have a reason

to believe that you copied this 6

7 language from Paragraph 30 since you

referred to Paragraph 30 in your 8

9 E-mail, I'd like to know that.

A. Well, as I say, it's only 10

11 three words. I don't know - or four

12 words. So I don't know whether those

four words came out of, you know, 13

some prior, you know, negotiation or

whether they came from this 15

paragraph. 16

Q. Okay. And you understand 17

the convention when you use a 18

capitalized term that -19

20 A. Yes.

Q. - that's typically a 21

defined term? 22

A. Right. 23

24 Q. And did you have any reason

Yes. comparable on other bases, but in 22 22 O. What is that?

159

A. Part of our underwriting

comparables. And the sales price for Regatta -- I forget what it was -was lower than what we were underwriting the value of Avenel. 5 Q. The sales price for the entire complex was lower? 6 A. The sales price per unit or 7 for the entire complex -8 Q. Doesn't matter. 9 A. - whatever, were lower -10 11 the actual sales price for Avenel was 12 lower than the sales price that was 13 indicated by our valuation. MR DAVIS: You said "for 14 15 Avenel." Are you -16 THE WITNESS: Oh, okay. 17 MR. DAVIS: Are you meaning Regatta? 18 THE WITNESS: For Regatta, 19 yes. Let me rephrase that. 20 The sales price for Regatta 21 22 was lower than the valuation on our 23 worksheet for Avenel. So we were looking for sales comparables in

I would guess so since that's what he's referring to. 11 12 MR. DAVIS: Don't guess. I 13 would ask you not to speculate. 14 THE WITNESS: Okay. I'm 15 sorry. Okay. All right. justify the valuation. 8 9

Q. And evidently, you did

succeed in doing that because the 10

11 loan application was approved.

A. No. Evidently because the 12

property sold for far in excess of 13

|----|--|
| 2 | Upon commencing at 9:06 a.m. |
| 3 | IVOR THOMAS, sworn |
| 4 | EXAMINATION |
| 5 | BY MR. SCHER: |
| 6 | 1 Q. Good morning, Mr. Thomas. Let me |
| 7 | formally introduce myself. My name is Howard Scher. I |
| 8 | represent the defendants in this lawsuit, which has been |
| 9 | brought by John Hancock Life Insurance Company, including |
| 10 | Vesterra corporation. I'll refer to the defendants |
| 11 | collectively as Vesterra. Is that acceptable to you? |
| 12 | A. Mm-hm. |
| 13 | Q. And you understand that I am the |
| 14 | attorney for the defendants in this case? |
| 15 | A. Yes, I do. |
| 16 | 3 Q. And you are here and you're represented |
| 17 | by John Hancock's counsel, Mr. Davis; am I right about that? |
| 18 | A. That's correct. |
| 19 | MR. DAVIS: Sorry to interrupt, but I take it |
| 20 | since we're in Toronto, we should probably make it clear. |
| 21 | We're proceeding under the United States Federal Rules of |
| 22 | Civil Procedure; correct? |
| 23 | MR. SCHER: Correct. |
| 24 | 4 Q. And that's acceptable to you, |
| 25 | Mr. Thomas? |
| | n 2 |

| 1 | A. Yes, it is. |
|----|--|
| 2 | Q. Could you identify yourself for the |
| 3 | record, please? |
| 4 | A. My name is Ivor Thomas. What else would |
| 5 | you like to know? |
| 6 | 6 Q. Well, what is your position? |
| 7 | A. My position with Manulife is senior |
| 8 | vice-president, North American mortgage operations. |
| 9 | 7 Q. What are your duties and |
| 10 | responsibilities as they relate to the John Hancock |
| 11 | operation in Boston? |
| 12 | A. My responsibilities are to ensure we |
| 13 | have the proper origination loan origination people in |
| 14 | place, that we have the proper policies in place. I'm |
| 15 | responsible for all the credit functions within the approved |
| 16 | guidelines as given out by the various boards of Manulife |
| 17 | and Hancock. I'm responsible for the overall credit quality |
| 18 | of the mortgage portfolio in the U.S. and the same applies |
| 19 | in Canada. |
| 20 | Q. Prior to the well, at the time that |
| 21 | Manulife acquired John Hancock, and I believe that was April |
| 22 | 28th of 2004, do I have that right? |
| 23 | A. I believe so. |
| 24 | 9 Q. Did you replace someone at John Hancock? |
| | Page 3 |
| | |

A. I replaced Mark Davis.

25

*** ROUGH DRAFT *** Neeson & Associates, Toronto

| 1 | 10 Q. And were there any other personnel |
|----|--|
| 2 | changes at John Hancock in Boston as a result of the |
| 3 | acquisition, in the mortgage area as a result of the |
| 4 | acquisition by Manulife? |
| 5 | A. Well, I'd like to point out that Mark |
| 6 | Davis left of his own accord, so it wasn't a personnel |
| 7 | change instituted by Manulife. No, as far as, to my |
| 8 | knowledge, no, not at that time, no. |
| 9 | 11 Q. In the year following the acquisition, |
| 10 | so that would be from April 28th, 2004, to April 2005, were |
| 11 | there other personnel changes as a result of the acquisition |
| 12 | by Manulife within your department? |
| 13 | A. Within the department, there were some |
| 14 | people that left. |
| 15 | 12 Q. But not at the instance of Manulife? |
| 16 | A. Not at the instance of Manulife. April |
| 17 | 2005 I'm trying to remember when that was. |
| 18 | 13 Q. There's a Mr. Henderson. |
| 19 | A. Yeah, there's David Henderson. I'm just |
| 20 | trying to get the dates straight in my mind. |
| 21 | 14 Q. okay. |
| 22 | A. But April 2005. David Henderson was |
| 23 | one. |
| | Page 4 |

- 24 15 Q. I know that David Henderson left the
- 25 company, I've taken his deposition, and he left the company,

- 1 I believe, in early 2005, perhaps the first quarter of 2005?
- 2 A. Yeah, I think it was probably March.
- 3 March, April, in that range. Yeah.
- 4 16 Q. Can you tell me the circumstances of his
- 5 leaving the company?
- 6 A. The circumstances leaving. What we were
- 7 doing was trying to reduce the -- how do I put this
- 8 politely, the body count. We'd gone through. We'd decided
- 9 there were too many people on staff, and then we identified
- 10 the various people we thought would be best to leave.
- 11 17 Q. Okay.
- 12 A. It was a re-engineering, put it that
- 13 way.
- 14 18 Q. And in connection with the
- 15 re-engineering, Mr. Henderson was asked to leave; is that
- 16 right?
- 17 A. That's correct.
- 18 19 Q. Were there others within the area of
- 19 your responsibility at John Hancock in Boston who were asked
- 20 to leave?
- 21 A. Jeez.
- MR. DAVIS: Objection. Howard, I don't

- 23 understand how -- whether other people within 2 organization
- were asked to leave has any relevance whatsoever in this 24
- 25 case.

*** ROUGH DRAFT *** Neeson & Associates, Toronto

6

- MR. SCHER: Okay, well, just bear with me 1 2 just for a minute. Mr. Nectow left the organization as well 3 20 in around this time; is that right? 4 No, he left in July of 2005, of his own 5 accord. 6 Okay. Were there others within the area 7 21 Q. of the mortgage lending at John Hancock in Boston who were 8 asked to leave as Mr. Henderson was? 9 I'm trying to think. In Boston. Can't 10 recall. Put it that way. Yes, there was one other. 11 J-u-n, Han, H-a-n. 12 And that is the -- the responsibilities 13 22 Q. that person held?

14

15

16

- Fine. In connection with your oversight 20 24 Q.
- of the mortgage lending function at John Hancock in Boston, 21

Page 6

He was not involved on the lending side

- 22 can you tell me about how much time you allocate to that
- 23 responsibility, beginning in the end of April 2004?
- A. Okay. There are several time periods
- 25 involved. But in April 2004 I was full-time.

*** ROUGH DRAFT *** Neeson & Associates, Toronto

- 1 25 Q. Okay. And then when did that full-time
- 2 condition end?
- 3 A. The full-time condition ended in,
- 4 essentially, November of 2004.
- 5 26 Q. Okay. And since then what's the level
- 6 of your involvement in the operation of the John Hancock
- 7 mortgage lending function in Boston?
- 8 A. I'm still involved in it a hundred
- 9 percent of the time, but actually, physically, I'm only
- 10 there 50 percent of the time. I'm a week there and a week
- 11 in Toronto, but I'm still a hundred percent involved in
- 12 things that go on.
- 13 27 O. In connection with your full-time
- 14 involvement until November of 2004 -- strike that.
- was there something that occurred in 2004
- 16 that caused you to reduce your physical presence there?
- 17 A. The Canadian vice president, a gentleman
- 18 by the name of Lorne Down, passed away in October of 2004,
- 19 and so his job was given to me. So my new responsibilities
- 20 at that time were to manage the U.S. portfolio, manage the

21 Canadian portfolio.

22 28 Q. So --

- 23 A. In addition, the Canadian portfolio is
- 24 split between Toronto and there's another portfolio in
- 25 Halifax.

*** ROUGH DRAFT *** Neeson & Associates, Toronto

- 1 29 Q. And your responsibility was -- as of
- 2 November of 2004, became all of North America?
- 3 A. That's correct.
- 4 30 Q. Do I have that right. Prior to November
- of 2004, so let's take it from April 28th, 2004, to November
- 6 2004, what was your title?
- 7 A. Senior vice-president, U.S. mortgages.
- 8 31 Q. Okay. In connection with your
- 9 responsibilities as the senior vice-president U.S.
- 10 mortgages, were there changes you implemented in addition to
- 11 personnel changes from the time you began your position
- 12 there?
- A. Since that time there have been several
- 14 changes. Change number 1 would have been the institution of
- 15 the Manulife credit policy, and subsequent to that we've
- 16 introduced new mortgage systems from what were previously in
- 17 place.
- 18 32 Q. Could you tell me what a mortgage system
- 19 is?

- 20 A. That's a system whereby you collect all
- 21 the payments of principal and interest. It's the accounting
- 22 system. It's the servicing system, how you keep track of
- 23 all your loans.
- 24 33 Q. When you say "system" is that a software
- 25 system?

*** ROUGH DRAFT *** Neeson & Associates, Toronto

9

- 1 A. It's a software system.
- 2 34 Q. So you have introduced the Manulife
- 3 software system which monitors the collection of mortgage
- 4 loans in the John Hancock operation?
- A. Well, what actually happened, there
- 6 were, at the time of the merger, there were three systems in
- 7 place. There was one in place by Maritime Life, which is
- 8 known as Plexus, there was one in place by Manulife, known
- 9 as Comet, and John Hancock was using a system known as
- 10 Strategy put out by McCracken.
- 11 Since the merger, and finally by March 1 of
- 12 this year, we put all those three systems on to one external
- 13 system run by Midland Loan Services.
- 14 35 Q. Okay.
- 15 A. Known as Enterprise.
- 16 36 Q. So as of March of '06, you now have one
- 17 mortgage system?
- 18 A. Right.

- 19 37 Q. From the time of acquisition until March
- 20 of '06 you were moving toward the integration and creating
- 21 of a uniform mortgage collection system?
- 22 A. That's correct. The Hancock portfolio
- 23 was integrated October, I think it was October 31st of 2005.
- 24 I could be wrong by a month, but October 31st.
- 25 38 Q. The third change that you identified was

*** ROUGH DRAFT *** Neeson & Associates, Toronto

- 1 the institution of a Manulife policy -- credit policy. And
- 2 could you tell me what that is?
- A. How do I put this in a few words? It's
- 4 a policy that has been drafted and it's basically
- 5 guidelines. It has received board approval and the
- 6 understanding is that the lending group, in this particular
- 7 case mortgages, follows those -- follows the parameters of
- 8 that policy.
- 9 39 Q. And I've seen a rather thick binder that
- 10 has a heading: "Manulife credit policy," and is that where
- 11 the Manulife credit policy is contained?
- MR. DAVIS: Objection. You may respond.
- MR. SCHER: Yeah, I'm just dropping something
- 14 vaguely.
- 15 THE DEPONENT: Well, I'm not sure what book
- 16 you looked at.
- 17 BY MR. SCHER:

- 18 40 Q. Right.
- 19 A. But there is a book, maybe you saw one
- 20 that had "policy" written on it. The policy part of it's
- 21 only about that thick and the procedures part is that thick
- 22 (indicating).
- 23 41 Q. Right.
- A. So the procedures part interprets what
- 25 the policy says.

- 1 42 Q. Now, in connection with the Manulife
- 2 credit policy, was there introduced a loan-sizing criteria
- 3 that we've referred to as the 10% constant?
- A. It's referred to, I think, in the U.S.
- 5 as a 10% constant but it's really referred to in the policy
- 6 as a 10 percent break-even rate.
- 7 43 Q. Okay.
- 8 A. And the concept is really not much
- 9 different than what was in place in the Hancock policy.
- 10 They called it a constant and it was used in a slightly
- 11 different position in the guidelines and in the Manulife
- 12 policy.
- 13 44 Q. Could you articulate what that
- 14 difference was?
- 15 A. Well, the Hancock, basically, looked at
- 16 a constant sort of aimed towards the end of the loan in

- 17 terms of renewal and whether it would carry that or not.
- 18 The Manulife point of view was basically concerned with
- 19 rising interest rates, in terms of when you do a lean, one
- 20 of your main concerns is, somewhere down the road interest
- 21 rates may rise significantly, to the point where you may not
- 22 be able to refinance the loan externally and you wouldn't
- 23 get repaid.
- So it was instituted, basically, as a check
- on how much room you had between today's rates and any

- 1 potential rate and what kind of risk that gave you.
- 2 45 Q. So the John Hancock view with respect to
- 3 the 10% break-even or constant, and I take it that those are
- 4 interchangeable words; is that right?
- 5 A. I don't think so.
- 6 46 Q. Okay.
- 7 A. Well, I don't think they're
- 8 interchangeable because for umpteen years now, 20-some
- 9 years, I've been using break even.
- 10 47 Q. And you're not about to use "constant."
- 11 A. And I'm not about to use "constant."
- 12 Yeah.
- 13 48 Q. All right. Well --
- 14 A. And I think that the constant comes in
- in a slightly different form of calculation.

- 16 There's different ways of telling whether a
- 17 loan can maintain its payment stream and cover the amounts
- 18 owed. Cover the amounts by the principal and interest
- 19 payments. It's a slightly different concept. It's kind of
- 20 hard to explain what the difference in the concept is.
- 21 49 Q. That's the concept between referring to
- 22 it as a "constant" or referring to it as a "break-even"?
- 23 A. Correct. As I've said, I've always been
- 24 used to break-even interest rate, and it's used for a
- 25 particular purpose, to guess or estimate what your risk is

- 1 if interest rates move up.
- 2 50 0.
- 3 A. It's slightly different than what is

- 4 used or it was used by Hancock or others who kind of use it
- 5 to say... jeez, how to explain this? You throw the number
- 6 in to see what the loan will carry or what the payments will
- 7 be.
- 8 51 Q. So you said in your testimony that there
- 9 are several tests regarding the ability of a borrower to
- 10 carry a loan.
- 11 A. Mm-hm.
- 12 52 Q. And that they include the Loan to Value,
- 13 do I have that right?
- 14 A. Correct.

- 15 53 Q. The Debt Service Coverage Ratio?
- 16 A. Correct.
- 17 54 Q. And this constant or break-even policy;
- 18 is that right?
- 19 A. Right.
- 20 55 Q. And all three are designed for what
- 21 purpose?
- 22 A. Well, the primary purpose is to rate the
- 23 loan. Under our policy, we're not allowed to do any loans
- 24 that are rated less than, and this is going to be a
- 25 difference in terminology between Canada and the U.S., but

14

- 1 the Manulife rating would be a triple B is your minimum. So
- 2 the policy would say you have to have a minimum Debt Service
- 3 Ratio. You have to have a minimum Loan to Value or maximum
- 4 Loan to Value. You got the break-even issue. And then
- 5 you've got a quality issue.
- 6 And all of those wrap together to tell you
- 7 what your rating should be.
- 8 56 Q. Okay. And as I understand it, it's your
- 9 testimony that in order for there to be the approval of a
- 10 loan, the borrower has to satisfy those four criteria:
- 11 Quality, plus the three ratios, Loan to Value, Debt Service
- 12 Coverage, and break-even or constant; is that right?
- 13 A. Well, the transaction has to satisfy

| 14 | those | _ |
|----|--------|---|
| | CITOSC | × |

- 15 57 Q. okay.
- 16 A. Has to satisfy a minimum credit rating
- 17 of triple B.
- 18 58 Q. And the way you arrive at a credit
- 19 rating of triple B is by appraising those four criteria?
- 20 A. Right.
- 21 59 Q. Quality, Loan to Value, Debt Service
- 22 Coverage, and constant or break-even; is that right?

15

- 1 60 Q. Now, you said that the triple B rating
- 2 was the Manulife system, and I take it from that that there
- 3 is a parallel system that John Hancock used and uses to rate
- 4 loans?
- 5 A. Since merger they're using the Manulife
- 6 system.
- 7 61 Q. Okay. So since merger, since April
- 8 28th, 2004, in order for a loan to be approved by John
- 9 Hancock, the loan would have to satisfy the four criteria
- 10 that you articulated, and the result of that -- is that
- 11 right?
- 12 A. That's right.

- 13 62 Q. As far as I've gotten?
- 14 MR. DAVIS: Objection.
- 15 BY MR. SCHER:
- 16 63 Q. And the result of that evaluation of
- 17 those four criteria had to create a triple B rating?
- 18 A. Correct.
- 19 64 Q. And unless those four criteria were
- 20 satisfied and a triple B rating achieved, the loan would not
- 21 be approved. Am I right?
- 22 A. Correct.
- 23 65 Q. In the Manulife world, does Manulife use
- 24 a loan application form?
- 25 A. Yeah, the answer is to that yes, but

*** ROUGH DRAFT *** Neeson & Associates, Toronto

- 1 it's not always.
- 2 66 Q. Okay. Can you tell me the circumstances
- 3 where a loan application form would not be used, just in
- 4 general terms?
- A. In general terms, depends on the timing.
- 6 67 Q. If a loan needs to be done quickly, then
- 7 they might not use an application?
- 8 A. That's correct.
- 9 68 Q. But generally speaking there is a loan
- 10 application required by Manulife?
- 11 A. Well, I'm referring to in the Manulife
 Page 16

- 12 days there were sort of a one or two page form that the
- 13 borrower would fill in. That's what I'm calling the
- 14 application.
- 15 69 Q. I see. I see?
- 16 A. Okay. And there's -- application gets
- 17 kind of confused, because there's a credit application which
- is an internal document, and there's the external document.
- 19 And the Hancock system was always slightly
- 20 different.
- 21 70 Q. I see. And so the credit -- so the loan
- 22 application was a two-page document. Can you just give me
- 23 the gist of the information, the identification of the
- 24 property and the --
- 25 A. And the borrower's name, the major

- 1 partners, identification of the property, the amount being
- 2 applied for. You know, general sorts of simple little
- 3 conditions like that. That often might be followed up by a
- 4 term sheet that went back outlining the terms and then...
- 5 And then you follow from that into the application format.
- 6 And after a credit application had been approved, then a
- 7 commitment letter was issued.
- 8 71 Q. So the credit application would be the
- 9 place where the prospective borrower would include financial
- 10 projection information and creditworthiness information, I

| | 06mr31-ROUGH DRAFT Thomas.txt |

| 11 | take it? |
| 12 | A. well, the credit application is where we |

| 14 | where all the financial statements he gave us, the rent |
| 15 | rolls, property descriptions, et cetera, et cetera, analyze |

| 17 | generally understand. And based on that rating and |
| 18 | describing what the transaction is, and then forwarding it, |

| 20 | Q. I see. And in included in that credit |

| 9 | 75 | Q. | You refer to four criteria, the three |

- 10 numeric ratios or numeric qualities and -- ratios and then
- 11 the quality. What is the quality referred to?
- 12 A. Have you got an hour?
- 13 76 Q. Okay. The intangible subjective
- 14 factors?
- A. I'll go back to the creating -- credit
- 16 rating system that we have -- had in place and still have in
- 17 place today.
- 18 Under various scenarios, there are minimum
- 19 Debt Service Ratios that are permitted. So the higher the
- 20 quality, in general, the higher the quality is, the higher
- 21 the rating of the quality, then the lower the Debt Service
- 22 Coverage Ratio that's allowed within a various rating --
- 23 whatever rating category you are using.
- 24 So the quality, if you look through the
- 25 manual you'll see there's a whole review which analyzes the

*** ROUGH DRAFT *** Neeson & Associates, Toronto

- 1 quality, how's the economy doing in that particular
- 2 neighbourhood? What is the quality of the building, what
- 3 are the quality of the sponsors? -- I'm using quality too
- 4 many times but...
- 5 Where the person underwriting the loan
- 6 transaction would justify his rating, whether this is
- 7 excellent, good, or fair or poor or whatever the case may
- 8 be. And based on that, that would allow you to use one debt

- 9 service credit ratio over another.
- 10 For example, in one case where you had an
- 11 excellent, you might go to a Debt Service Coverage Ratio of
- 12 1.15.
- 13 77 Q. If it was poor you might go to?
- 14 A. You know, if you had the manual I'd show
- 15 you, but it would be a higher number.
- 16 78 Q. Okay.
- A. So that's what I'm trying to explain.
- 18 That's how the quality came out. It looked at a variety of
- 19 different angles of the transaction from the general overall
- 20 economy to the economy of the state, the economy of the
- 21 state, location of the property, quality of the borrowers,
- 22 quality of the people managing the property. All these
- 23 sorts of aspects were wrapped into there to justify whether
- 24 it was excellent, poor, bad, or whatever. And then that
- 25 would then justify what Debt Service Ratio would be the

- 1 limiting factor on the rating.
- I know I've thoroughly confused you now.
- 3 79 Q. Not thoroughly.
- 4 MR. DAVIS: He started out confused, that's
- 5 okay.
- 6 BY MR. SCHER:
- 7 80 Q. And so when you arrived at John Hancock, Page 20

- 8 did you find that their loan approval process differed from
- 9 that which Manulife had employed previously?
- 10 A. Their process differed. Yes, it
- 11 differed.
- 12 81 Q. Is it accurate to say that their loan
- 13 application included the credit application as well as the
- 14 fundamental loan application which Manulife had previously
- 15 used?
- 16 MR. DAVIS: Objection. Would you read back
- 17 the question, please.
- 18 BY MR. SCHER:
- 19 82 Q. Let me restate it. Did you find that
- 20 the loan application used by John Hancock included the
- 21 credit application information which you just described,
- 22 which Manulife had been using?
- 23 A. Okay. Let me try to explain it this
- 24 way.
- The basic bare bones of the Hancock

*** ROUGH DRAFT *** Neeson & Associates, Toronto

- 1 application were not that much different than the basic bare
- 2 bones of the Manulife application.
- 3 Generally all the same things, you considered
- 4 the same financial characteristics were reviewed and
- 5 considered, the rating system, which I've been -- was
- 6 referring to earlier, was basically the same. It included Page 21

- 7 an aspect for quality in it as well that talked about Debt
- 8 Service Ratio, it talked about Loan to Value, it talked
- 9 about all those sorts of things. There really was not a
- 10 major difference.
- 11 The major difference in the overall credit
- 12 application process, and pardon me for rambling here, is the
- 13 start to finish was slightly different. In the Hancock
- 14 system, all the terms and conditions of a loan were
- 15 negotiated basically before the loan was approved. In the
- 16 Manulife system those kinds of things were negotiated after
- 17 the loan was approved.
- And in the approval process at Hancock was a
- 19 presentation to a committee, whereas the Manulife process
- 20 was a walk-around. It went to one level, to another level,
- 21 to another level. It was not presented to a committee.
- 22 So in the Hancock system, a lot more work was
- 23 done by the Hancock folks up front, before the application,
- 24 credit application or the application for loan or the
- 25 borrower's request was even considered by a committee or by

*** ROUGH DRAFT *** Neeson & Associates, Toronto

- 1 any approval authority.
- 2 But in terms of the rating system, it's very
- 3 close to the same.
- 4 83 Q. Okay.
- 5 A. And in terms of the items looked at and Page 22

- 6 the issues considered, identical.
- 7 84 Q. So the end of the process for Manulife
- 8 and John Hancock were virtually the same, is that what
- 9 you're saying?
- 10 A. Yes.
- 11 MR. DAVIS: Objection.
- 12 BY MR. SCHER:
- 13 85 Q. But the --
- 14 MR. DAVIS: The end of the process?
- MR. SCHER: Yes. Y.

- 18 101 Q. Can you tell me what your vague

- A. The 10% break-even was used to actually
- 9 stress-test the loan to see what it would carry in terms of
- 10 maximum interest rates which would be in effect at maturity.
- 11 And it was used to assist you in determining what the credit

- 7 MR. DAVIS: Objection. You may respond.
- 8 THE DEPONENT: I think it involved -- in some

- 14 BY MR. SCHER:
- 15 121 Q. Okay. Can you explain to me why the

- 17 A. It's called "break-even" because of the
- 18 way it's calculated. You take net operating income and
- 19 divide it by the loan amount, which basically only considers
- 20 the interest cost of the loan and not the amortization
- 21 factor.
- 22 And basically, as I've tried to explain to

- 11 A. No, I wasn't.
- 12 351 Q. Who was?
- 13 A. Barry Nectow.
- 14 Well, to a rate lock. I mean, once again, as
- 15 I explained earlier, it depends on the length of the rate
- 16 lock.
- 17 352 Q. We're talking about a rate lock for a
- 18 year. That the rate would be locked for a year. Are you
- 19 the person who's responsible for that?
- 20 A. That is part of the credit application

- 22 353 Q. Okay. So what does that mean, that...
- 23 Who is in charge of the credit application process to
- 24 approve a rate lock?
- A. Sorry, I don't understand your question.

| 2 | Upon resuming at 12:55 p.m. |
| 3 | BY MR. SCHER: |
| 4 | Q. You said just before lunch that your |
| 5 | understanding was that the borrower asked you to reconsider, |
| 6 | not you personally, but to ask John Hancock to reconsider. |
| 7 | A. Mm-hm. |
| 8 | Q. And what was it that you understood you |
| 9 | were being asked to reconsider? |
| 10 | A. Well, reconsider whatever the changed |
| 11 | conditions were so that we could go back to the original |
| 12 | borrower application, the same terms and conditions that |
| 13 | were previously agreed to in principle by the various |
| 14 | parties. |
| 15 | Q. All right. |
| 16 | A. So that meant what we had to do was take |
| 17 | a look internally, look at our internal-generated numbers |
| 18 | for cash flows and all that sort of thing, and see whether |
| 19 | those numbers would still support that 10 percent break-even |
| 20 | condition I had put in the first approval. Basically, we |
| 21 | were just asked to reconsider: Would we actually do the |
| 22 | deal that was first discussed? |
| 23 | 521 Q. Okay. And as a result of the |
| 24 | reconsideration, do I understand that the process, the what |
| 25 | you described as the loan approval process, was restarted? |

| 1 | | A. Correct. |
|----|-----------------|---|
| 2 | 522 | Q. And as a result of which there were |
| 3 | changes made to | o the loan approval process? |
| 4 | | A. Well, to the information backing up the |
| 5 | loan approval, | yeah. |
| 6 | 523 | Q. And the information backing up the loan |
| 7 | approval proce | ss are the numbers contained in the loan |
| 8 | approval docum | ent. |
| 9 | | A. Mm-hm. |
| 10 | | MR. DAVIS: You have verbalize your response. |
| 11 | | THE DEPONENT: Sorry? |
| 12 | | MR. DAVIS: You have to verbalize your |

| 7 | A. I don't know. |
| 8 | Q. I'll show you what I've marked as Thomas |

- 3 546 Q. Okay. Well, I guess what I was asking

- 5 insufficiently clear.
- 6 So what he's asking for is that the approval,

I'll try again. I 7 didn't understand myself. Since the rate lock, treasury had dropped. 8 So that meant that, given the same spread as we were 9 10 charging, that some other outside lender, other lender, would take treasuries plus that spread and would end up 11 resulting in a lower rate for the borrower. 12 I see. So is it fair to say that he's 13 0. referring to the risk that a competitor could secure this 14 borrower in the event the loan were not approved as it was 15 16 requested in this modification? MR. - 8 or with respect to the operating expenses, or with respect

- 9 to the inclusion of new criteria, that would have to go back
- 10 to Mr. Thomson, the person who's superior to you?
- 11 A. That's correct.

- 14 this?
- MR. DAVIS: Objection. You can respond.
- THE DEPONENT: To go back a bit, the original
- 17 approval, and however it was transmitted to borrower,
- 18 resulted in the borrower saying he was not happy with the
- 19 deal, and would we reconsider providing the loan on the
- 20 basis originally contemplated. What I told Mr. Malik was
- 21 that if we were going to do that that would necessitate
- 22 rewriting the numbers that we use in our own analysis to
- 23 prove that the loan worked according to our criteria.
- 24 If he could do that, then it had to be

Brian: Nectow will not testify as a corporate designee. Coyne will be the Hancock designee on topic #s 2, 5, 6, and will supplement the testimony already provided on topic #3. Call if you have questions.

Also, by way of clarification, the final portion of topic #2 (last sentence) seeks a designee with respect to the "negotiation of the [terms and conditions of the Loan Application] between Defendants and John Hancock". You have already deposed Malik and Ferrie, the Hancock individuals who negotiated that document with the defendants. Please let me know if there are legitimate areas of inquiry on that subject on which you were not able to question those witnesses. If so, I am happy to speak with you and determine whether we can make another witness available - but I think you have already spoken with the most knowledgeable people.

To confirm our conversation.

When Brian canceled Ivor Thomas for the 21st last week, I told him we could not take Mr. Thomas's deposition on Wednesday, (3/22), because Howard and I have a mediation in Detroit, Michigan that day. Brian was going to get dates from Mr. Thomas and get back to me. I had not heard back from Brian yet.

Please provide me with some available dates for Mr. Thomas.

I also want to discuss how your proposal regarding post-designating portions of Mr. Malik's deposition as a 30(b) (6) witness would work.

C.A. No. 05-11614-WGY

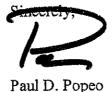

Dear Howard and Brian:

I write concerning the Motion to Compel you filed last night, and in light of the Judge's comments during our in-chambers pretrial conference this afternoon.

As Brian Davis and I mentioned to you after the conference, if it is possible to do so we would like to resolve any remaining discovery concerns which you have cooperatively. Toward that end I ask that you please identify for us any 30(b)(6) subject area(s) on which you believe you are missing information, or any particular subject area(s) on which the testimony you received was inadequate or incomplete.

Once we have received this information from you we will promptly identify an appropriate witness or witnesses to provide you with additional deposition testimony. I remind you also of our previous offer of several weeks ago to designate portions of the depositions of Timothy Malik and Jonathan Ferry as responsive to your 30(b)(6) notice, and binding upon Hancock as though the designations had been made prior to the depositions. Please let me know if that approach is of interest to you.

If you are available, I would like to set up a call to discuss this matter on April 3, 2006 (this Monday) at 10:00 a.m. Please let me know at your earliest convenience.

Subject: Motion for Reconsideration

Paul,

I have your letter of March 30th, and am following up on our discussions last week and Monday. I apologize for not being available to talk but a personal emergency has taken me out of the office for the week.

We agree that the parties should continue to work together to avoid any further discovery disputes similar to the one that caused us to file our Motion to Compel.

However, Judge Young has already ruled that John Hancock improperly prepared its Rule 30(b)(6) designees and that John Hancock is now "precluded from proffering any new evidence on the designated 30(b)(6) topics not testified to in those depositions." It is not our burden to remedy that situation. Thus, rather than identify areas where we believe information was missing or where testimony was incomplete (we think that these are self-evident from the depositions), we believe it is your burden to supplement, if possible and timely, your witnesses' deficient testimony. We are not agreeing that we will permit such a supplement at this late date, but would be agreeable to reviewing such an attempt.

We have no intention of bypassing your offer to designate retrospectively the portions of Malik and Ferrie which you wish to make binding on the corporation. However in no way will we agree in the abstract that such designations satisfy your obligations.

We will undertake to review promptly any proposed designations we receive from you, and will get back you within a few days with our response to any such proposal.

Howard
